CYCJET DOD SERIES INKJET PRINTER

ALT160Plus D24L
ALT260Plus D40L

INTRODUCE

CYCJET DOD Series Large Character Inkjet Printer are widely used in building materials, chemical industry, pipes, packaging and other industries. It can print text, production date, batch number, etc. on the product surface. The machine uses a touch screen design with rich interface, simple operation and easy printing. Its nozzle is not easily clogged and is easy to maintain. In addition, it has strong heat resistance, anti-interference and is very practical. This machine can print larger font heights, which is helpful to meet customer needs for large character printing.

HIGHLIGHTS

- USB & Wi-Fi wireless transmission.
- Touch screen design, rich interface.
- strong impact resistance and heat resistance, anti-interference.
- High performance print signal output.

PARAMETERS

Model Item	Handheld Inkjet Printer		Smart Online Inkjet Printer	
	ALT160Plus	ALT260Plus	D24L	D40L
Print Height	10-50mm (16 dots)	10-82mm (40 dots)	10-50mm (20 dots)	10-82mm (40 dots)
Throw Weight	12kg		46.9kg	
Package Volume	50×40×30cm		62×43×88cm	
Display	5 inch color touch screen		7 inch touch screen	
Print Rows	1-2 rows. Overall layout height not to exceed 50mm	1-5 rows. Overall layout height not to exceed 82mm	1-2 rows. Overall layout height not to exceed 50mm	1-5 rows. Overall layout height not to exceed 82mm
Type	DOD Inkjet Printer			
Basic Configuration	Printing max two lines or five lines of numbers, or English, all the national standard database of Chinese characters and English letters, self simple graphics, the machine without external gas source, free warranty for one year. (Optional)			
Software Function	Real-time clock date, product counting, frequency			
Operation Function	English operation system, delay in printing, the font width, font height, orientation, self-cleaning. sensor settings.			
Print Speed	Manual Control		0.2-60m/min	
Battery Capacity	18650mAh		Plugged in	
Powder	AC220V±10%, 50-60HZ, 5 W			
Print Spacing	8-10mm			
Print Content	Real date, Real time, photo, letter, shift group, serial number, batch number, barcode and QR code, etc.			
Printing Direction	Upward printing, downward printing, side printing (360°direction printing, optional)			
Operator Interfaces	Image-style & Chinese or English (Spanish, Portuguese, Arabic) menu.			
Memory Function	More than 60pcs text can be storage		3GB storage space, each file can store up to 400 characters	
Ink Type	Water-based ink, ketone-based ink, alcohol-based ink, other special-based ink can be customized as required			
Ink Color	black, red, yellow, blue, white, etc. (optional)			
Body Material	Newinjection body		Industrial grade stainless steel body	
Protection Level	Not suitable for high dust, high humidity working environment			
Humidity Range	10-90% Non-condensing			
Temperature Range	5-40°C			
Others	No need to connect external compressed air, and no need thinner (i.e. solvent)			

DOD Technical Features

- **Usage environment:**

It can meet the needs of industrial inkjet printing and is suitable for harsh working environments, such as dust environment, humid environment, and vibration environment.

- **Wide application:**

The ink dries quickly and is suitable for industrial printing needs, such as carbon steel, cement products, etc. This machine can also print on cartons.

- **High stability:**

The machine has a simple structure, no need to consider the ink circuit system, easy to install, easy to operate, and has a low failure rate.

- **Low maintenance and operating costs:**

The ink circuit structure is simple and there is no complicated ink supply system. Only ink is required and running costs are low.

DETAILS

APPLICATIONS

Telephone pole information printing

Concrete pipe information printing

Cement floor logo printing

Wooden box logo printing

Carbon steel pipe information printing

Iron barrel date printing

Carton logo printing

Brick information printing

Touch screen Handheld
Large characters Industrial
